Disclaimer

The information contained in the Document is for general information purposes only.

The Company assumes no responsibility for errors or omissions in the contents of the Document.

In no event shall the Company be liable for any special, direct, indirect, consequential, or incidental damages or any damages whatsoever, whether in an action of contract, negligence, or other torts, arising out of or in connection with the use of the contents of the Document. The Company reserves the right to make additions, deletions, or modifications to the contents in the Document at any time without prior notice.

Errors and Omissions Disclaimer

The information given by the Document is for general guidance on matters of interest only. Therefore, errors can occur even if the Company takes every precaution to ensure that the Document's content is current and accurate. Plus, given the changing nature of laws, rules, and regulations, there may be delays, omissions, or inaccuracies in the information contained in the Document.

The Company is not responsible for any errors or omissions, or for the results obtained from the use of this information.

Fair Use Disclaimer

The Company may use copyrighted material that the copyright owner has not explicitly authorized. The Company is making such material available for criticism, comment, news reporting, teaching, scholarship, or research.

The Company believes this constitutes a "fair use" of any such copyrighted material as provided for in section 107 of the United States Copyright law.

If You wish to use copyrighted material from the Document for your own purposes that go beyond fair use, You must obtain permission from the copyright owner.

"Use at Your Own Risk" Disclaimer

All information in the Document is provided "as is", with no guarantee of completeness, accuracy, timeliness or of the results obtained from the use of this information, and without warranty of any kind, express or implied, including, but not limited to warranties of performance, merchantability and fitness for a particular purpose.

The Company will not be liable to You or anyone else for any decision made or action taken in reliance on the information given by the Service or for any consequential, special or similar damages, even if advised of the possibility of such damages.

Introduction 4

Custom Attributes 4

Azure AD 5

User Profiles 6

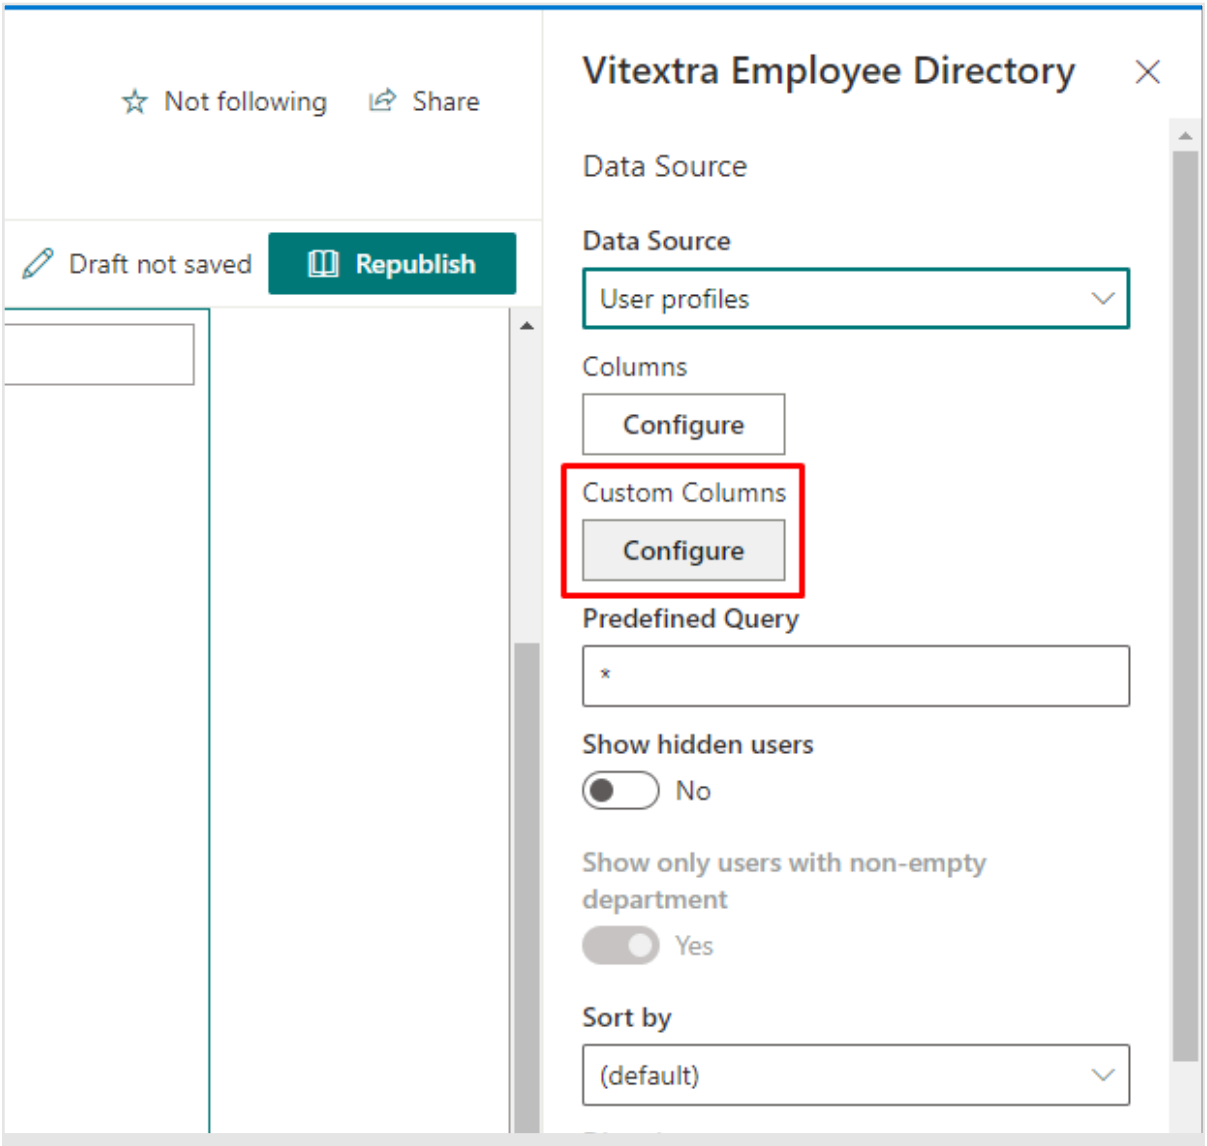
This article explains how to add custom attributes to the Vitextra Employee Directory web part for both Azure AD and User Profiles data sources.

Introduction

The Vitextra Employee Directory web part supports custom attributes starting from version 3.2.15. You can add attributes for both User Profiles and Azure AD data sources.

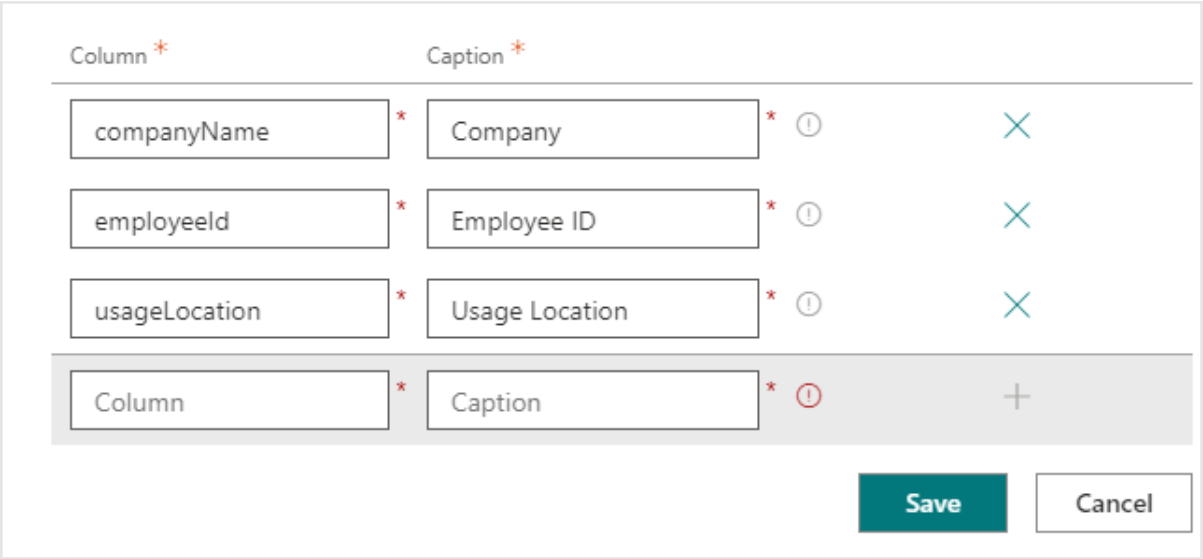
Custom Attributes

To manage custom attributes, open the web part configuration pane and select **Custom Columns** under the Data Source heading:



Web Part Configuration Pane

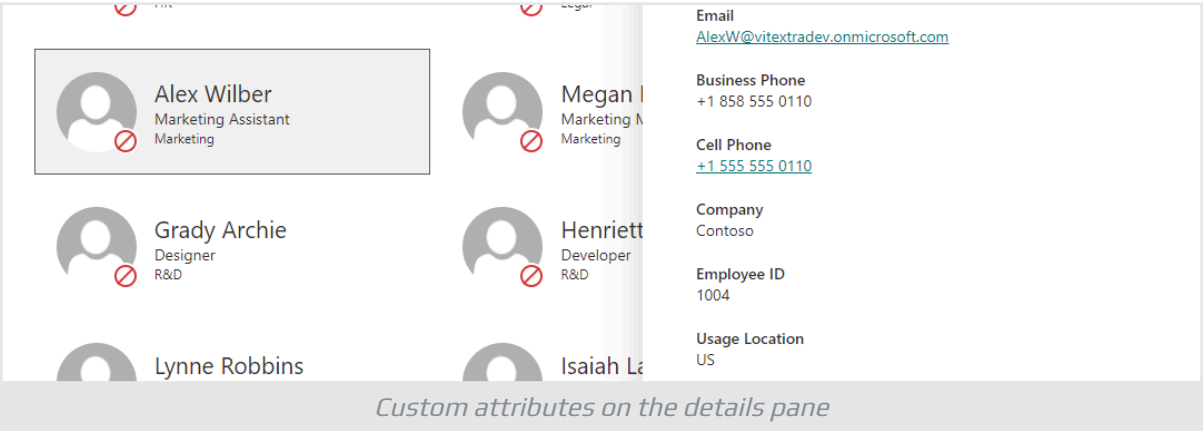
In the data editor, enter the schema name and caption for each additional attribute:



Adding Custom Attributes for Azure AD

Click **Save** and republish the page.

The additional attributes then appear in the employee details pane:



Custom attributes on the details pane

The schema name of custom fields depends on the data source the web part uses.

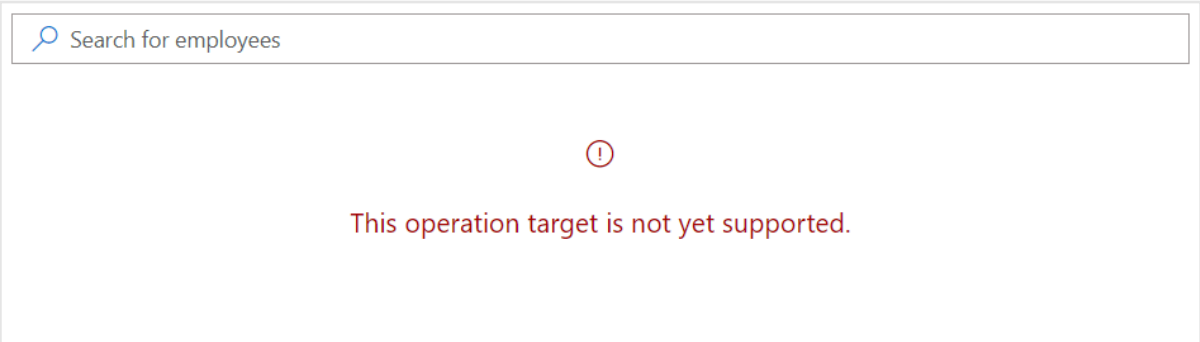
Azure AD

When the data source is Azure AD, the available user attributes are defined in the User resource type.

Tip

Because Employee Directory uses the Microsoft Graph API to retrieve data from Azure AD, only properties of the user resource type are available for use.

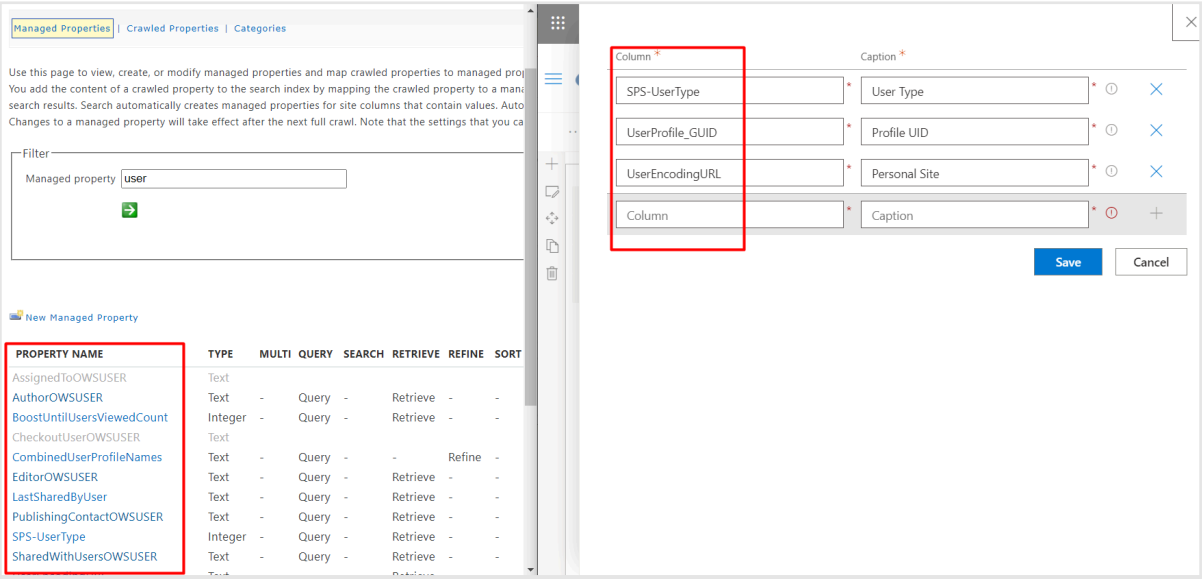
Not all properties of the user resource type support the `$select` operation. If you reference an unsupported property, the following error message may appear:



Not Supported Error

User Profiles

When User Profiles is used as the data source, you can reference Managed Properties as custom attributes on the details pane.



Adding Custom Attributes for User Profiles

Tip

See the How to Create a Custom Searchable User Profile Property guide for more details.
